Soil Testing for Homeowners: A Healthy Step Towards Natural Lawn Care

A natural lawn starts with healthy soil which you can attain by giving it proper nutrients. To find out exactly which nutrients your lawn needs, conduct a soil test by collecting a soil sample and having it examined in a laboratory. The following is a list of many labs throughout Illinois willing to help you understand your soil. Always contact them first to learn more about their specific fees, services, and methods for sampling.

A&L Great Lakes Agricultural Lab

3505 Conestoga Drive
Fort Wayne, IN 46808-4413
Phone: 260-483-4759
